ZO INSTRUMENTS

ZO ULTRA LITE 3/4 Bb TUBA

Lightweight. Durable. Built to Perform.

VALUE=QUALITY+PRICE

BLACK RED BLUE GREEN PINK PURPLE

SILVER GOLD

The ZO Ultra Lite Tuba with 4 brass piston valves is smaller and lighter than the ZO 4/4 Rotary Ultra Lite Tuba. This 3/4 Bb polycarbonate tuba is ideal for students and smaller players.

Built-to-last, ZO Ultra Lite Tubas features specially formulated polymer which creates an impressively smooth sound. The new brass piston valve block super responsive (four valve, front action) is exceptionally durable and easy to maintain, while the brass leadpipe gives an improved response and richer tone quality.

*PC-ABS hybrid material merges the strength and heat resistance of PC with the toughness and processability of ABS.

ZO Ultra Lite Tubas comes with a modern matte finish or in bright silver or gold plate, a high-quality mouthpiece, and a gig bag.
