ZO INSTRUMENTS

ZO NEXT GENERATION TROMBONE

Professional Performance. Exceptional Value.

Lightweight. Durable. Built to Perform.

The ZO Next Generation Trombone combines innovative materials, outstanding durability, and excellent playability in a lightweight instrument designed for today's musicians.

Featuring a super-fast fiberglass inner slide and responsive aluminum rotor valve, the ZO Trombone delivers smooth action, reliable performance, and impressive projection.

Constructed from advanced PC/ABS hybrid material, it offers exceptional durability while remaining comfortable to play for musicians of all ages.
